Dos. 206 and 208 Church Street

TO THE TRADE

WE take pleasure in presenting our **WHOLESALE TRADE PRICE LIST FOR 1896.** We do not claim to compete in prices with all other jobbers, but do claim to grow and sell the very best seeds that can possibly be produced, and that are suited to dealers who have a first-class trade with experienced private planters and critical market gardeners.

It is our constant aim to make **quality a first consideration.** While we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty, expressed or implied. If the purchaser does not accept the seeds on these terms and conditions, they must be returned at once, and the money that has been paid for the same will be refunded.

Soliciting your orders, which shall always have our prompt personal attention, we are,

Very respectfully,

JOHNSON & STOKES

217 and 219 Market Street

PHILADELPHIA, PA.

OUR TERMS

All bills for vegetable seeds are due June 1, 1896, without regard to date of purchase; a discount of one per cent. per month will be allowed on all payments made before June 1st, except on Onion Sets, Potatoes, Grain, Grass and Clover Seeds, which are always net cash. Peas, Beans, Corn and Bird Seeds, when ordered in quantities and unaccompanied by a general order of vegetable seeds, are also net.

JOHNSON & STOKES' GARDEN SEEDS IN PAPERS

Our seeds in papers are put up in very handsome and attractive style for the retail and jobbing trade. They are of larger size and better filled with seed than those usually put up by jobbing houses, who use special gauges for this particular trade, and will be found as salable as any other brand in the market.

Prices for Pkts. retailing at 5c. each, \$2.00 per 100—\$15.00 per 1000
" " " " "10c. " \$4.00 " 100—\$30.00 " 1000

500 Packets will be furnished at 1000 rate, less than 500 at the 100 rate

"Novelties" in Vegetable and Flower Seeds, quoted retail at 15, 20 and 25 cts. per packet, will be furnished at one-half retail prices

OUTRIGHT SALE ONLY

We do not send out our seeds to be sold on commission and the balance to be returned, but look at the difference in your profits. All Seeds which retail at 5 cents per packet are sold to the merchant in the varieties and quantities that he selects at

\$15.00 PER THOUSAND PACKETS

OR ONE AND A-HALF CENTS PER PAPER

They contain as much or more seed than those furnished "on sale" at \$50.00 per thousand with a commission of 50 per cent. on those sold, which makes "commission seeds" cost the dealer \$25.00 per thousand or 2½ cents per paper. Therefore, you could sell 600 papers of our seeds, throw away 400 papers, if necessary, pay for the whole thousand, and still, make the same money as on the 600 papers left on commission.

BEANS, PEAS AND SWEET CORN

IN QUART AND PINT BOXES FOR RETAILING

We put them up in this form, in very attractive style, at an additional cost of one cent per package over bushel prices.

JOHNSON & STOKES'

Wholesale Quotations for 1896.

Quantities of ten pounds and over will be supplied at one hundred pound price, one-quarter bushel and over at bushel price, one-half pound and over at pound price. Prices given are subject to market fluctuations, and subject to advance without notice.

Our customers will find a *Telegraphic code word* printed opposite each article, enabling them to order by wire at comparatively little expense. For example: "Five Baneful," would mean five bushels Improved Round Pod Extra Early Valentine Beans; "Twenty Chaser," would mean twenty pounds Johnson & Stokes' Matchless Late Flat Dutch Cabbage. The additional word "Freight," "Express," "Mail," would designate mode of shipment. Our code is that adopted by the American Seed Trade Association.
